WHO WE ARE:

- **Metal Forming Solutions, LLC** has more than **32 years** of experience and has established a solid reputation for providing innovative solutions, the highest quality products, and outstanding customer service for formed metal products servicing Commercial, Industrial and Construction projects.
- MFS is both a Manufacturer and a Master Distributor proficient in inventory management with significant cost-saving methods used to produce our customized fittings.
- MFS consistently provides accurate and on-time deliveries covering a comprehensive array of metal forming projects, regardless of size, large or small.
- Metal Forming Solutions has seen the revolutionary change of forming materials by hand to Full CNC machinery and from DOS applications to a Full Manufacturing ERP system.
- MFS has built a team of experienced Operators that receives extensive on-site training and continuing education in metallurgy, thermodynamics and various chemical/mechanical applications used to develop the best solutions from planning to implementation.
- Metal Forming Solutions provides a one-year comprehensive warranty on all formed products from the date of shipment. The MFS Sales Team is available 24/7/365 to help you find the best solution for your project.
